# SOBRE O RESEARCHERID

[WWW.RESEARCHERID.COM](http://WWW.RESEARCHERID.COM)

- ResearcherID fornece uma solução para o problema de ambigüidade autor dentro da comunidade de pesquisa acadêmica.
- Cada membro é atribuído um identificador único para permitir aos investigadores para gerenciar suas listas de publicações, acompanhar seus tempos citado contagens e h-index, identificar potenciais colaboradores e evitar autor erros de identificação.
- Além disso, suas informações ResearcherID integra-se com o Web of Science e é compatível ORCID, permitindo-lhe reivindicar e mostrar as suas publicações a partir de uma única conta.

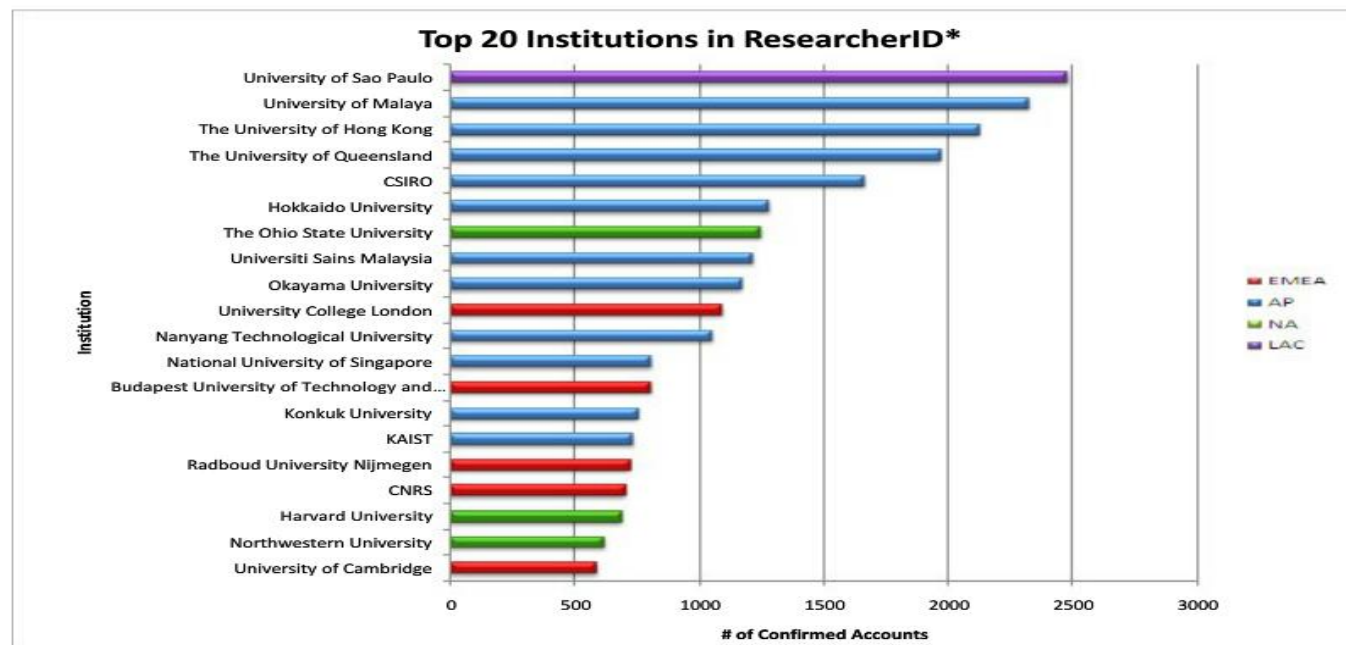

ResearcherID é uma comunidade com inúmeros pesquisadores de várias partes do mundo.

UK 4º mais representativo no ResearcherID, seguidos por USA, China e Brasil.

**What is ResearcherID?**

ResearcherID provides a solution to the author ambiguity problem within the scholarly research community. Each member is assigned a unique identifier to enable researchers to manage their publication lists, track their times cited counts and h-index, identify potential collaborators and avoid author misidentification. In addition, your ResearcherID information integrates with the *Web of Science* and is ORCID compliant, allowing you to claim and showcase your publications from a single one account. Search the registry to find collaborators, review publication lists and explore how research is used around the world!

**Top Keywords**

Find researchers based on your area of interest.

Como realizar o cadastro?

Thank you for your interest in ResearcherID!

We're glad you've accepted your invitation to become part of the ResearcherID community. By registering, you're helping to build a resource that standardizes and clarifies author information - strengthening the connections between you and your colleagues.

**Data Privacy:** The information that you submit as part of this registration will be processed by Thomson Scientific. Information will be viewable by default on your public profile page on ResearcherID.com. You can make some or all of your information private or to update any of your information at any time.

Add Publications

[Return to My Researcher Profile](#)

Publication List: 0 article(s)

[Search Web of Science for Articles](#) | [Search Web of Science for Distinct Author Sets](#) | [Upload a .RIS file](#)

There are 3 methods of adding publications to your list. Select one of the options above by clicking a link.

Note: If you have access to *ISI Web of Science* from your computer then all links will be visible.

- Search *ISI Web of Science* for Articles

Use this option to search *ISI Web of Science* for items written by you. Depending on your subscription, this can include articles, books, patents, and more. You can select items to add to your publication list.

- Search *Web of Science* for Distinct Author Sets

Use this option to search *Web of Science* for sets of articles written by you. You can select items to add to your publication list.

- Upload a File

You can upload an RIS formatted text file. The RIS file format is a tagged format for expressing bibliographic citations.

Existem três formas de adicionar as publicações: busca na Web of Science, busca usando a ferramenta “Distinct Authors Sets” ou incluir de arquivos gerados do EndNote ou Reference Manager no formato RIS.

[Add Publications](#)

[Return to My Researcher Profile](#)

Publication List:0 article(s)

[Search Web of Science for Articles](#)

[Search Web of Science for Distinct Author Sets](#)

[Upload a .RIS file](#)

## Web of Science - Article Search

Step 1 of 2 : Enter your surname and up to 3 initials (no spaces).

\* Required Field.

**Last / Family Name:**  \*

*Example: Johanson*

**First Initial(s):**  \*

*Example: A\**

**Topic:**

*Example: cancer\* OR tumour*

**Source Title:**

*Example: Clinical Nuclear Medicine*

**Publication Year:**

*Example: 2001 or a range 1991-2001*

(Results are displayed below.)

### Search Hints [\(Hide\)](#)

Search for one name at a time. Enter your surname and up to 3 initials (no spaces).

Wildcard operators are supported in all fields except Publication Year:

\* (truncation)

\$ (0 or 1 character)

? (1 character)

Boolean operators AND, NOT, and OR are supported in the Topic field. OR is supported in the Source Title field.

For names containing non-alpha characters such as "O'Brien," perform two searches: first for "O'Brien" then for "Obrien."

A busca de artigos pela base de dados Web of Science pode ser feita utilizando o campo de nome (Last/Family Name) ou por Topic, Source Title e/ou Publication Year.

## Web of Science - Article Search

Step 1 of 2 : Enter your surname and up to 3 initials (no spaces).

\* Required Field.

Last / Family Name:  \*

Example: Johanson

First Initial(s):  \*

Example: A\*

Topic: 

Example: cancer\* OR tumour

Source Title: 

Example: Clinical Nuclear Medicine

Publication Year: 

Example: 2001 or a range 1991-2001

(Results are displayed below.)

## Search Hints (Hide)

Search for one name at a time. Enter your surname and up to 3 initials (no spaces).

Wildcard operators are supported in all fields except Publication Year:

\* (truncation)

\$ (0 or 1 character)

? (1 character)

Boolean operators AND, NOT, and OR are supported in the Topic field. OR is supported in the Source Title field.

For names containing non-alpha characters such as "O'Brien," perform two searches: first for "O'Brien" then for "Obrien."

## Articles: 25 record(s) returned

Step 2 of 2 : Select records on this page and add them to your list before navigating to other pages.

The image shows a screenshot of the ResearcherID website interface. At the top, the 'ResearcherID' logo and 'Researcherid.com' are visible on the left, and navigation links for 'My Researcher Profile', 'Logout', and 'Search' are on the right. Below this, a secondary header repeats the logo and site name, with additional links for 'Home', 'My Researcher Profile', 'Logout', and 'Search'. The main content area is titled 'Add Publications' and includes a 'Return to My Researcher Profile' button. On the right side of this section, it says 'Publication List: 13 article(s)'. Below the title, there are three links: 'Search Web of Science for Articles', 'Search Web of Science for Distinct Author Sets', and 'Upload a .RIS file'. A prominent message in a dashed orange box states: 'Your file has uploaded successfully. 5 item(s) have been added to your publication list.' Below this message, there is a note: 'You can upload an RIS-formatted file. The RIS format is a tagged file format. [More information and samples](#)'. At the bottom of the upload section, there is a text input field labeled 'Browse for your RIS file:' followed by a 'Browse...' button, an 'Upload File' button, and a 'Clear' button. The 'Browse...' button and the 'Upload File' button are highlighted with a green border.

Os artigos também podem ser inseridos no sistema de bibliotecas de gerenciadores de referência (EndNote, EndNote Web ou Reference Manager). É necessário que o arquivo esteja na extensão RIS.

# CONSIDERAÇÕES...

## **Prós**

- Fornece um identificador único autor que pode ser utilizado
- O ResearcherID pode estar ligada à ORCID ID
- Pode incluir variáveis do nome;

## **Contras**

- Sistema proprietário;
- Limitado aos recursos disponíveis através da Web of Knowledge.

**ORCID** significa: **O**pen **R**esearcher & **C**ontributor **I**D

**ORCID** é um recurso de registro de identificação de autor que ajuda a eliminar qualquer ambiguidade relativamente nomes de autores comuns. Ele permite que qualquer investigadores elegíveis para se registrar e receber uma identificação única, gerir a sua conta e procurar outros no Registro ORCID.

## Sobre o ORCID

**ORCID** ajuda a distinguir entre autores com nomes comuns e ajuda a esses autores garantir que eles estão recebendo o reconhecimento apropriado das suas obras.

O **ORCID** pode ser reticulado com tanto o **ResearchID** e identificador **SCOPUS** e, a partir de janeiro de 2014, **MEDLINE** incluirá Autor **Name ID** (AI) como um campo que irá incluir números de identificação **ORCID**.

## Personal Information

### Biography

Rebecca Bryant joined ORCID in April 2013 as Director of Community. In this role, she develops relationships, programs, and communications to support the understanding and integration of ORCID identifiers. Prior to joining ORCID, she served as Assistant Dean in the Graduate College at the University of Illinois where she led numerous initiatives, including the establishment of graduate career services, the creation of a postdoctoral affairs office, and the collaborative implementation of Electronic Theses and Dissertations (ETDs). Dr. Bryant earned a bachelor's degree at Butler University, a master's degree from the University of Cincinnati College-Conservatory of Music, and a PhD from the University of Illinois at Urbana-Champaign.

### 3. ENDEREÇO DE EMAIL

# 4. IMPORTANDO SEUS REGISTROS

## IMPORT WORKS ×

ORCID has been working with many member organizations to make it easy to connect your ORCID iD, and import information from their records. Choose one of the imports wizards to get started.

### **Australian National Data Service (ANDS) Registry**

Import your research datasets into ORCID from Australian National Data Service (ANDS) and Research Data Australia (RDA). ANDS is partnering with Australian research institutions and data producing agencies to improve discovery and reusability of research data across many research domains from earth science to technology and engineering.

### **CrossRef Metadata Search**

Search CrossRef's comprehensive metadata on journal articles, conference proceedings and monographs. Easily add search results to your ORCID profile.

### **Europe PubMed Central**

Europe PubMed Central (Europe PMC) offers this tool to enable you to link anything in Europe PMC to your ORCID. Europe PMC contains all of PubMed, 500K records from Agricola that cannot be found in PubMed, 4 million Patents and 2.6 million full text articles that we share with PMC in the USA.

### **ResearcherID**

ResearcherID is a global, multi-disciplinary scholarly research community where members can register for unique identifier, build a profile of their scholarly works, view citation metrics, and search for like-minded researchers.

### **Scopus to ORCID**

Import your Identifier, profile and publications. The wizard helps you find the correct Scopus profile and to confirm your publications. You can then import the identifier and list of publications into ORCID. Any changes you make will be submitted to the Feedback team to update your Scopus profile.

**Don't see what you are looking for?** You can connect your ORCID iD to many other organizations and sites. See our [Member Integration Page](#) to find more connections.

- Use as várias assistentes de importação ORCID para importar seus trabalhos;
- Este processo de importação não só preenche o seu registro, ele também atribui seu iD ORCID para as obras das bases de dados Scopus e ResearcherID, tornando seu trabalho mais fácil de descobrir.

# 5. RESEARCHER ID PARA ORCID

RESEARCHERID 

ORCID

Did you know you can associate your ORCID ID with your ResearcherID account?

- I would like to create an ORCID record. The Open Researcher and Contributor ID (ORCID, Inc.) is a non-profit organization that aims to solve the author/contributor name ambiguity problem in scholarly communication by creating a central registry of unique identifiers. These identifiers can be used within various systems you may interact with in your professional research workflow, including manuscript submission, etc. Learn more about [ORCID](#).
- I already have an ORCID record. By creating an ORCID you will be able to link your ResearcherID account with this centralized registry.
- No, thank you. If you choose not to get or associate an ORCID, you can do it at a later time.

# CONSIDERAÇÕES

## Prós

- Contribui para a atribuição de autoria confiável;
- O ORCID pode estar relacionada com outras plataformas, como a base de dados Scopus, ResearcherID, entre outras;
- O ORCID está sendo solicitado pelos editores, entre elas: Nature, Elsevier, Springer, entre outras);
- O ORCID agora está sendo incluído no MedLine;
- Ele não está limitado por disciplina (qualquer domínio da investigação podem participar).
- Ele é gratuito para todos.

## Contras

- Os autores podem "acidentalmente" reclamar obras que não são suas;
- A interface não é tão amigável;
- Ainda em fase de desenvolvimento/refinamento.

# Considerações

- Citações do Google Acadêmico oferece aos autores uma forma simples de acompanhar as citações de seus artigos.
- É possível verificar quem cita suas publicações, ver gráficos de citações ao longo do tempo e avaliar diversas métricas de citação.
- O seu perfil pode se tornar público para que ele seja exibido nos resultados do Google Acadêmico quando as pessoas pesquisarem, por exemplo: **Rubens Belford Jr**

## Perfil

Monitore as citações das suas publicações. Apareça nos resultados de pesquisa do Google Acadêmico pelo seu nome.

Nome:\*

Afiliação:

Por exemplo: Professor de Ciência da Computação, Universidade de São Paulo

E-mail para verificação:

Use um endereço de e-mail da sua instituição. Por exemplo: seunome@usp.br

Áreas de interesse:

Por exemplo: Inteligência artificial, Biologia da conservação, Teoria de preços

Próxima etapa

Com uma conta no Google,  
é possível preencher seu  
dados.

*As contagens de datas e citações são aproximadas e são determinadas automaticamente por um programa de computador.*

### Adicionar artigos: Isabel Menezes

Localize artigos que você escreveu e adicione-os a seu perfil. Mais tarde, você poderá editar ou excluir os artigos em seu perfil ou adicionar mais artigos.

Tente pesquisar pelo seu nome, títulos dos artigos, coautores ou palavras-chave.

### Grupos de artigos

1-1

#### Isabel Menezes

[The process of value-meaning construction: A cross-sectional study](#)

I Menezes, BP Campos - European Journal of Social Psychology, 1997

[Affective education: A comparative view](#)

P Lang, YJ Katz, I Menezes - 1998

[Visualizar todos os artigos](#)

- Automaticamente, o sistema mostra seus possíveis trabalhos.
- Ao selecioná-los, basta adicionar.

1-1

### Atualizações do perfil

- Usaremos um modelo estatístico de autoria para identificar os novos artigos que você escrever. Também podemos atualizar informações bibliográficas para artigos em seu perfil ou identificar entradas duplicadas desses artigos, que podem ser mescladas ou excluídas. Como deseja lidar com essas alterações?
  - Atualizar automaticamente a lista de artigos do meu perfil. *(recomendado)*
  - Não atualizar automaticamente meu perfil. Enviar e-mail para análise e confirmação das atualizações.
- Você também pode adicionar e remover artigos individualmente, atualizar os dados bibliográficos e mesclar registros duplicados. Fique tranquilo que nossas atualizações automáticas preservarão suas edições e não as substituirão.
- Coletaremos e exibiremos citações dos seus artigos que estão no Google Acadêmico. As citações serão atualizadas automaticamente, refletindo as alterações realizadas no seu perfil e no Google Acadêmico.

Convidando coautor

Enviar convite

Após a conta criada, você pode adicionar toques finais ao seu perfil fazendo o upload de uma foto profissional, verificando seu e-mail institucional, e garantir que as suas citações estão todos listados.

## Prós

- Obter até métricas data de citação (i10-index, h-index e total de citações) e gráficos
- Veja quem citou seus artigos
- Receba atualizações sobre novas citações para seus artigos
- Ter um perfil de usuário on-line, se desejado

## Contras

- Seu "Citado por" contagem vir do índice do Google Scholar, que não é tão preciso, nem tão transparente quanto índices de banco de dados (tais como Scopus da Web of Science).

**OBRIGADA!**
